

# Jira Board Overview

The Jira board serves as a visual representation of the agile workflow for the “Fresh Flow Grocery Mobile App project”. It includes epics, user stories, acceptance criteria, and sprints, providing an organized framework to track progress, manage tasks, and ensure project transparency.

## 1.0 Epics and User Stories

The project is divided into epics to group related features and user stories under each epic.

### Overview of epics and user stories

- Epic: Customer Functions

The screenshot displays the Jira interface for the 'Fresh Flow Grocery Mobile App' project. The 'Customer Functions' epic is selected, showing a list of child work items. The progress bar indicates that 36% of the work items are completed.

Item ID	Item Name	Status
SCRUM-4	Account Creation	DONE
SCRUM-5	Password Reset	IN PROGRESS
SCRUM-6	Product Search	DONE
SCRUM-7	Product Filters	TO DO
SCRUM-8	Add items to cart	DONE

- Epic: Store Admin Functions
